Nguyễn Huỳnh Minh Tuấn

0934159597 twuanminn47@gmail.com https://www.linkedin.com/in/twuan-min-a98356344/ District 7, Hồ Chí Minh city

OBJECTIVE

With a strong foundation from my four years of university education and a deep passion for this position, I am confident in my intellectual abilities. Hands-on experience in programming, problem-solving, and teamwork through practical projects, with a proactive willingness to learn new technologies and contribute effectively in a professional IT environment.I am committed to continually setting higher standards for myself to expand my knowledge and expertise in this domain.I am willing to learn new technology stacks or take on different roles as needed

EDUCATION

◆ **TDTU - Ton Duc Thang University, Ho Chi Minh , Viet Nam** 2021 - 2025

Major: Software Engineering

CERTIFICATIONS

IELTS Certificate with score 7.0 issued by IDP VN 2023	9/2023
Google Prompting Essentials Specialization	1/2026
Google UX Design Certificate	1/2026
Google Project Management Certificate	1/2026
Google AI Essentials Specialization	1/2026

SKILLS

Programming Languages	Javascript, Typescript, Java , Python(Novice)
Database Management System	MongoDB Atlas, PostgreSQL
Software & Tools	Git , Postman , MongoDB , Firebase
Foreign Languages	IELTS 6.5 (L:7.5 , R:6.0 , S:6.0 , W:7.0)
Frameworks / Platforms	ReactJS,NextJS, React Native, NodeJs (Express, NestJs),Tailwind Css
Soft skills	• Experienced in using AI tools and effective prompting techniques to enhance work efficiency and task automation. • Skilled in using office applications (Word, Excel, PowerPoint) • Have a good foundation in OOP methodologies and Design patterns • Have problem-solving skills, adaptable to new environments, with effective teamwork, critical thinking, innovative and a proactive learning mindset

- Familiar with project management practices using Jira and Confluence, including Waterfall, Scrum (Agile), and Kanban methodologies
- Apply myself with uttermost focus in assigned tasks to deliver exceptional outcomes that exceed expectations

WORK EXPERIENCE

◆ TDTU University February 2022 - May/2022

IT SUPPORT VOLUNTEER

- Provided technical support for software and hardware issues
- Assisted in setting up computer systems and network configurations
- Created documentation for common troubleshooting procedures
- Provided consultation and addressed student inquiries in a timely and effective manner.

◆ Anh Hao Quang English Center March 2023 - March 2024

ENGLISH IELTS TEACHER

- Delivered IELTS preparation lessons across all four skills: Listening, Reading, Writing, and Speaking
- Developed exam-focused materials and provided targeted feedback to improve performance
- Supported students in achieving higher band scores through personalized instruction

PROJECTS

◆ Habit Tracking Mobile Application 6/2025 - 8/2025

Fullstack developer

- Developed a native Android habit tracking application using Android Studio and Java
- Implemented features for creating, monitoring, and managing daily habits with reminders
- Designed user-friendly interface with intuitive navigation and progress visualization
- Integrated local database (Firebase) for persistent data storage and habit history tracking

◆ LSTM-based Machine Translation (EN → FR) 9/2025 - 11/2025

Machine Learning Developer

- Built an LSTM Encoder–Decoder with Attention for English–French machine translation using Python and PyTorch.
- Handled the full workflow: data preprocessing, training, inference, evaluation, and error analysis, with attention visualization and model optimization.

◆ Furnza - Furniture Website 10/2025 - 1/2026

UI/UX Designer

- Built a responsive e-commerce web application using Next.js, React, and TypeScript, focusing on performance, clean UI, and usability.
- Implemented backend features with Supabase and PostgreSQL, including authentication, secure data access with Row Level Security (RLS), and real-time inventory updates.
- Deployed the application on Vercel, ensuring fast load times, reliable deployments, and global availability.
- Link: https://furnthome.vercel.app/

◆Fadelab - Barber Booking & E-Commerce Platform 8/2025 - 1/2026

Full Stack Developer

- Designed and implemented a full-stack barber booking and e-commerce platform, enabling real-time appointment scheduling and product purchases with zero double-booking through event-driven availability control.

- Built a scalable, secure backend architecture using PostgreSQL and Supabase with Row Level Security (RLS), ensuring data integrity, role-based access, and real-time synchronization across users.
- Deployed a cloud-native, serverless system on Vercel, optimizing performance and scalability while supporting automated notifications, complex scheduling logic, and multi-role workflows.
- Link: https://fadelab.vercel.app/

❖ Resume Portfolio Website 11/2025 - Present

FrontEnd Developer

- Developed a personal portfolio website using React and Tailwind CSS, with responsive layouts, dark/light mode, and smooth UI animations.
- Built an interactive chatbot interface that guides visitors through projects and skills, supporting conversational flow, quick replies, and error handling.
- Deployed on Vercel with performance-focused practices such as lazy loading, image optimization, and clean code standards (ESLint, Prettier).
- Link: https://mine-ptfl.vercel.app/
